Success Story

By *Emily Beeforth*,
Inclusion & Fundraising Coordinator

Growing up, many children wonder who they are going to become when they are older - teacher, singer, actor, police officer, doctor, etc. For me, it was no different.

When I was 11, I joined the After School Program at Jersey Public School where some of my family were attending and volunteering. I remember it being a fun and safe environment where I could get help with homework and have fun with my friends. When I started high school, it was an easy choice to continue my time with Jericho and complete my volunteer hours.

The leadership and life skills I learned through my experience at Jericho gave me the confidence that I could do this for a career; work with kids, be that positive role model, and have a positive impact on my community. With this thought, I pursued a job opportunity with Jericho in 2007, and never left. I returned on my break from University and continued to grow in my roles.

Now I am part of the Senior Management Team as the Inclusion & Fundraising Coordinator, supporting our frontline staff. My experiences with Jericho has had a positive impact on my life.

Jericho Youth Services would not be possible without the support of our funders and community partners. We know that without these partnerships we would not be able to continue working toward our mission to develop and empower our youth to become engaged and caring citizens in their community.
